SUMMARY

My name is Delano Di Blasio.

Living in the sunny Johannesburg, South Africa.

I am a passionate, hardworking and knowledgeable individual with an array of experience which provide administrative and technical skills in office as well as external settings. Moreover, I am accustomed to addressing the changing needs of an office and supporting colleagues and superiors with excellent assistance skills. I bring forth high quality organizational skills and self-motivated drive in order to be able to achieve excellence.

I love to explore and have a very creative gene which is why I am enjoying web development because I can get creative with websites.

EXPERIENCE

05/2021 - 10/2021 *Student, HyperionDev*

- I am currently a Junior Full Stack developer looking for some work experience preferably in Front-end Development as I have more experience in front-end than I do back-end but I am always willing to push my boundaries to learn all the time! I have done some UI/UX design in my bootcamp.
- I have recently completed The full stack web development bootcamp which HyperionDev offered Link is Here In this Bootcamp I learnt a lot and I am confident in a few languages such as : HTML, CSS, JavaScript and JavaScript frameworks like React.JS, Next.JS, Node.JS.
- We also touched on the backend side and databases using MongoDB and Express.
- I have completed this 6 month bootcamp I got a Accredited from SETA See Here.
