Willing to relocate: Anywhere

Work Experience

Student
HyperionDev
May 2021 to October 2021

I am currently a Junior Full Stack developer looking for some work experience preferably in Front-end Development as I have more experience in front-end than I do back-end but I am always willing to push my boundaries to learn all the time! I have done some UI/UX design in my bootcamp.

I have recently completed The full stack web development bootcamp which HyperionDev offered Link is Here In this Bootcamp I learnt a lot and I am confident in a few languages such as : HTML, CSS, JavaScript and JavaScript frameworks like React.JS, Next.JS, Node.JS .

We also touched on the backend side and databases using MongoDB and Express. I have completed this 6 month bootcamp I got a Accredited from SETA See Here
